Hello Ben,

Kate informed me of your call earlier today. I am still working with Rep. LaTourette to identify dates in the district for this meeting. Could you provide additional information, like how many attendees there would be and names of the attendees?

Thank you,

Ciara

Right to Work Legislation Meeting Request

Message :  
Hello,

My name is Alexis Oberdorf, and I am emailing on behalf of We Are Ohio, which currently is focusing on Right to Work legislation in Ohio. I would like to find a time in the next few weeks to set up a meeting between some of our members and Representative LaTourette preferably in his home district.

The meeting would consist of 3-5 constituents coming to speak on behalf of We are Ohio. The setting should be public preferably (like a public library) but the meeting itself will be private. We are flexible both on meeting time and location! If you

could get back to us with some potential dates, we'd be thrilled to move forward with the rest of the details.

We look forward to hearing from Representative LaTourette soon.

Best,

Alexis Oberdorf

Hi Ciara! It would only 3-4 people but we won't know specifically who can attend until we have a date but we could let you know specifically once we get that and know everyone's availability. Usually it's 1-2 member of building trades and a teacher of public service employee. We could do just about any date as long as we have a week or so to plan.

Thanks,  
Ben

Concerns about HB 504

Message :

As an architect and your constituent, I want to express my concerns about the Certified Interior Designer Bill (HB 504) sponsored by Representative Pelanda and currently under consideration in House Economic Development, Commerce, and Labor Committee.

House Bill 504 allows interior designers to practice architecture:

The statutory definition of the practice of architecture (OAC 4703-1-01) clearly outlines the scope of services an individual may provide, if they qualify as a licensed architect. Unfortunately, HB 504 proposes a scope of services for interior design that is substantially similar to the scope of services an architect may provide. AIA Ohio is concerned that this bill would allow non-architects, in this case interior designers, to offer and provide architecture services that they are un-trained to perform.

House Bill 504 creates uncertainty and confusion for Ohio's local governments:

Besides overburdening local building departments, House Bill 504 also creates uncertainty within the plan review and approval process. Since the bill proposes a very similar definition for the practice of interior design as the existing definition of the practice of architecture, building officials will be left without clarity and would be required to, on a case-by-case basis, determine the scope of services for which an interior designer may stamp their drawings and submit for a permit. This has real life consequences and would delay plan review and approval times considerably.

House Bill 504 proposes a non-occupational licensing board to regulate an occupation:

All of the Ohio licensing boards that regulate professions responsible for protecting health, safety, and welfare in the built environment are composed of individuals who have direct experience in the profession they regulate. House Bill 504 proposes that a board, which is made up of individuals who do not have direct experience in the practice of interior design and that does not currently have an

As an architect and your constituent, I want to express my concerns about the Certified Interior Designer Bill (HB 504) sponsored by Representative Pelanda and currently under consideration in House Economic Development, Commerce, and Labor Committee.

House Bill 504 allows interior designers to practice architecture:

The statutory definition of the practice of architecture (OAC 4703-1-01) clearly outlines the scope of services an individual may provide, if they qualify as a licensed architect. Unfortunately, HB 504 proposes a scope of services for interior design that is substantially similar to the scope of services an architect may provide. AIA Ohio is concerned that this bill would allow non-architects, in this case interior designers, to offer and provide architecture services that they are un-trained to perform.

**Job growth stalls:  
After three months of solid growth Ohio lost jobs in April**

**Contact:** Hannah Halbert  
**614.221.4505**

After three months of steady job growth the state lost 1,000 jobs in April, according to data from the Current Employment Statistics Survey (CES) released today by the Ohio Department of Job and Family Services (ODJFS). Manufacturing (-1,800) and arts, entertainment and recreation experienced the largest losses (-4,000). Gains in trade, transportation and warehousing (+3,900) and professional business services (+2,300) could not fully offset these and other smaller losses. The nation has made steadier gains, reaching a 1.6 percent growth rate over the previous 12 months.

“January through March brought good news, but April suggests a return to sluggishness,” said Hannah Halbert, researcher with Policy Matters Ohio, about the CES data. “Since last April, Ohio has added nearly 57,000 jobs, a 1 percent job growth rate. More than a decade and a half of tax cuts and slack investment in public services still has not brought rapid job growth, as some politicians and business interests promised.”

“This month’s data is mixed, with bad news from one survey and good news from another,” said Halbert, who also cautioned that monthly data is subject to revision. Data from the Household Survey, also released today by ODJFS was more positive than the CES data. Both include data important to understanding the state labor market. The CES

collects information on payroll and employment in surveyed firms. The Household Survey collects information from people about individual participation in the labor force. They have different sample sizes, respondent populations, and definitions for "jobs" and "employment." These differences mean that the surveys can differ. That is the case in April.

The Ohio unemployment rate and other data from the Household Survey moved in a solidly positive direction. The number of people working or looking for work increased (+7,000) as did the number employed (+11,000). The number of unemployed people fell by 4,000. This suggests that people moved off the bench into jobs, dropping the unemployment rate to 4.3 percent in April from 4.4 percent in March.

"A growing labor force, with more employed Ohioans is unequivocally good. However, Ohio's labor force has never recovered to its pre-recession level," Halbert said. "The state needs 208,000 more people working or actively seeking work to break even. A tighter labor market should boost wages, particularly for African-American workers. The wage gap between black and white workers in Ohio has doubled since 1979. Policies like raising the minimum wage and expanding overtime to workers will help balance the scales."

**Subject:** Deconstructing the Administrative State Luncheon

Hello! Had enough of bureaucracy? Tired of all the red tape? Concerned about rogue agencies seemingly operating impervious to oversight? I am, too!

A wise man once said, "There is no such thing as a free lunch," but he was wrong!

On Wednesday May 23<sup>rd</sup> there will be a panel discussion of HB580 featuring the American Principles Project's Erin Tuttle, Greg Lawson of The Buckeye Institute, and Micah Derry of Americans for Prosperity. It will be moderated by Representative Andy Thompson. There will also be a free lunch provided by the parties in question.

House Bill 580, adds oversight and transparency to Ohio executive agencies' applications for federal grants, in an effort to control the rise of the administrative state. The discussion will

include how the bureaucracy of our federal and state governments has grown over time, and how this administrative growth has specifically hurt the State of Ohio through federal grants and mandates. We will discuss how HB580 will help address the problem we have with a rising administrative state, and institute oversight via the executive branch.

WHERE: 31<sup>st</sup> Fl. North Room

WHEN: Wednesday May 23<sup>rd</sup> from 11:00-12:15

WHO: All Members and Staff are invited

Please RSVP to AJ Thomas ([AJ.Thomas@ohiohouse.gov](mailto:AJ.Thomas@ohiohouse.gov)) by Friday May 18<sup>th</sup> so we may have a count for lunch.

We hope to see you there!

## Senate Activity for Tuesday, May 22, 2018

### COMMITTEE HEARINGS

#### Local Government, Public Safety & Veterans Affairs

##### **HB 8**

**RECORDS EXEMPTION (Hambley, S., Rezabek, J.)** To exempt from the Public Records Law certain information concerning a minor that is included in a record related to a traffic accident involving a school vehicle in which the minor was an occupant at the time of the accident. (**REPORTED-AMENDED**; 1st Hearing-All testimony-Possible amendments & vote)

**Sen. Bob Hackett** (R-London) offered an amendment that was accepted without objection.

Chairman **Sen. Joe Uecker** (R-Loveland) said the amendment would create an exemption allowing journalists to view the records that would be withheld from the general public.

The committee voted to move the measure forward with no dissenting votes.

##### **SCR 23**

**FEDERALISM (Obhof, L., Peterson, B.)** To reassert the principles of federalism found throughout the Constitution of the United States of America and embodied in the Tenth Amendment, to notify Congress to limit and end certain mandates, and to insist that federal legislation contravening the Tenth Amendment be prohibited or repealed. (**CONTINUED**; 2nd Hearing-All testimony-Possible vote)

Daniel Dew, legal fellow with the Buckeye Institute, in interested party testimony said that federalism has been eroded several times in the country's history. He cited the adoption of the 17<sup>th</sup> amendment, which requires the direct election of U.S. senators, and multiple U.S. Supreme Court decisions dating to President Franklin Roosevelt's administration as examples.

"Few would argue that federalism today remains the robust stalwart against federal encroachment that James Madison and Alexander Hamilton envisioned," he said. "The ebbs and flows of history and jurisprudence have taken their toll."

Mr. Dew said the federal government also has reduced the power of the states by influencing them to change policies in order to receive large amounts of funding, which he argued Ohio's legislature should resist.

**Sen. Cecil Thomas** (D-Cincinnati) asked Mr. Dew why the resolution should be directed at Congress, instead of the U.S. Supreme Court, which ultimately has the power to rule on whether the federal government's actions are constitutional.

Mr. Dew said that while the Supreme Court may be the final arbiter of constitutionality, Congress can take many steps to push back on the federal government's encroachment on the states' traditional role in government.

#### **Insurance & Financial Institutions**

**HB 489**

**FINANCIAL INSTITUTIONS (Dever, J.)** To provide some regulatory and tax relief to state banks and credit unions, to provide for data analytics to be conducted on publicly available information regarding banks, credit unions, and consumer finance companies, to modify when a creditor can file a claim against an estate, to require registration of mortgage loan servicers, and to require a specified notice be given to a debtor for certain debt collection. (CONTINUED; 1st Hearing-Sponsor & proponent)

Sponsor **Rep. Jonathan Dever** (R-Cincinnati) said the legislation is designed to improve the environment in which small lending institutions operate.

"Nationally, over 6,000 small lending institutions have shuttered since 2010," he said. "In the event of another recession, like the one in 2008, our state will not have enough diversity in our financial services sector to weather the storm."

The proposal includes provisions allowing financial institutions to remedy and report mistakes such as unintentional clerical errors without fear of retribution from state regulators, he said. Rep. Dever told **Sen. Bill Beagle** (R-Tipp City) the list of bona fide errors that would be included in the second chance rule is listed in the statute and largely includes clerical issues, not data breaches.

Dustin Holfinger, vice president of state government relations at the Ohio Bankers League, said the proposal includes a variety of regulatory relief for state-chartered institutions. One is the ability for banks with certain ratings and assets under \$10 billion to extend their examination schedule from an 18-month cycle to a 24-month cycle.

"This would assist the bank by allowing it to focus more on what it does best - serve customers without the additional presence of multiple examiners," he said.

Emily Leite, vice president of government affairs the Ohio Credit Union League, said federal regulations in the wake of the 2008 financial crisis made it more difficult for small financial institutions to comply with regulations.

"While the State of Ohio has little jurisdiction over federal regulation, HB489 is a step in the right direction towards remedying burdensome state banking regulations without compromising institutional safety and soundness," she said.

The measure received written support from Marc Dann, founding partner of DannLaw, who said it would make mortgage servicers subject to registration and regulation under the Residential Mortgage Lending Act.

"Anyone who has worked within, studied, or observed the evolution of mortgage lending since the collapse of the housing market understands why Ohio must begin to regulate mortgage servicers in general and debt buyers who traffic in defaulted and often underwater second mortgages in particular," he said.

**SB 227**

**HEALTH PLAN CLAIMS (Huffman, M.)** To require health plan issuers to release certain claim information to group plan policyholders. (REPORTED (No testimony); 5th Hearing-All testimony)

**SB 265**

**PHARMACY SERVICES (Dolan, M.)** To permit certain health insurers to provide payment or reimbursement for services lawfully provided by a pharmacist and to recognize pharmacist services in certain other laws. (CONTINUED; 3rd Hearing-Opponent & interested party)

Miranda Motter, president and CEO of the Ohio Association of Health Plans, said in written interested party testimony that the legislation contains two potential issues. She said the measure in its current form represents a mandate for health plans, and suggested it be changed to make clear it is voluntary. The other issue is that the contracting requirements are unclear.

"For months, OAHP has been engaged with the Ohio Pharmacists Association to identify long-term financially sustainable business model solutions for Ohio's pharmacists," she said. "OAHP and the plans have been engaged with OPA to understand the independent pharmacists' concerns. Health care is constantly changing and determining the ways pharmacists and pharmacies can distinguish themselves in this market will be very important to long term sustainability."

Keith Lake, vice president of government affairs for the Ohio Chamber of Commerce, submitted written testimony in opposition to the measure.

The chamber doesn't generally oppose allowing insurers to reimburse pharmacists for providing any health care services they are legally authorized to provide, he said. The chamber's concerns stem from a provision he said appears to require insurers to reimburse pharmacists without any restrictions or limitations, language that could interfere with plans' ability to negotiate terms with providers. Plans should maintain the ability to build networks that include some, but not all, providers, he said.

"Therefore, we urge amending the bill to ensure that only pharmacists who are 'participating providers' - a term already present in Ohio law - and have a health care contract with an insurer are entitled to reimbursement for health care services rendered to an enrollee under the health care contract," he said.

**SB 273**      **RATING AGENCIES (Hackett, B.)** To enact for the Revised Code a definition of the term "rating agency." (**CONTINUED**; 3rd Hearing-Opponent & interested party)

Michael Farley, vice president of government affairs and general counsel for the Ohio Insurance Institute, said in written testimony that the legislation would create a framework for future legislative consideration of insurance rating agencies. It also provides clarity for references to specific rating agencies and promotes competition, he said.

"This legislation puts forth necessary clarity in referencing insurance rating agencies," he said.

**SB 275**      **NURSE ANESTHETISTS (Burke, D.)** Regarding the authority of certified registered nurse anesthetists to administer drugs in addition to anesthesia and to select and order certain other drugs. (**CONTINUED**; 2nd Hearing-Proponent)

The Ohio State Medical Association and the Ohio Society of Anesthesiologists said in written testimony that they are both neutral on the proposal. The groups said the legislation will expand the scope of practice for certified registered nurse anesthetists while maintaining a team-based model of care.

"It is important to note that this bill is a compromise piece of legislation and one that our organizations worked very hard to achieve consensus on," they wrote. "Critical to this bill is

the provision allowing the supervising physician to determine that the physician, not the CRNA, will order the necessary drugs for the patient in the immediate post-operative period. While CRNAs gain great flexibility to order drugs for the patient under the bill, the supervising physician may still want to order the drugs for the patient based on the type of surgery involved or the patient's acuity level."

Dr. Andrew Thomas, senior associate vice president for health sciences at the Ohio State University Wexner Medical Center, wrote in support of the measure.

"We support allowing each facility to determine the best way to provide patient care that utilizes the skills and knowledge of the CRNA and ensure appropriate team-based interaction between the CRNA and physicians in the anesthetic care of each patient," he wrote.

**Governor's Appointments:** The committee recommended full Senate confirmation of the governor's appointments of Kenneth Haffey, Tracie Sanchez, Michael Taylor and Frederick Treuhaff to the BWC Board of Directors.

**Subscribers Note:** Full testimony is available on the [committee's website](#) under May 22. **Judiciary**

**HB 271** **ACCESSIBILITY LAWS (McColley, R., Rezabek, J.)** To authorize an alleged aggrieved party to provide a notice of an alleged accessibility law violation in advance of filing a civil action and to establish the circumstances under which an alleged aggrieved party is entitled to attorney's fees in a civil action based on the violation. **(CONTINUED; 1st Hearing-Sponsor)**

Rep. Jeff Rezabek (R-Clayton) said the aim of the bill is to preserve the integrity of the Americans With Disabilities Act.

"While the purpose of the American with Disabilities Act was to ensure that disabled individuals had the same opportunities as everyone else to participate in the mainstream of American life, many instances of abuse of this law have been brought to our attention recently," he said in sponsor testimony. "For example, pre-suit notifications or 'demand letters' are often sent to businesses such as grocery stores for extremely minor and unnoticeable violations of the ADA."

The measure would require notice of an access violation before filing suit, along with a cure period.

"We are not seeking to discourage or delay compliance with the ADA standards, but rather provide an environment that is beneficial for both the businesses and the people of Ohio,"

Rep. Rezabek said. "This legislation will encourage that violations actually be corrected rather than both parties going through the costly expense of a lawsuit."

**HB 283** **ADOPTIONS (Rezabek, J.)** To require the juvenile court judge to provide written consent to certain adoptions involving abused, neglected, or dependent children. **(CONTINUED; 2nd Hearing-Proponent-Possible amendments)**

David Haverfield, director of Tuscarawas County Job & Family Services, said the measure will solve a problem created by a 2016 Ohio Supreme Court decision.

"In that case, the Ohio Supreme Court held that the probate court has exclusive jurisdiction to approve an adoption of a child that was already subject to the jurisdiction of the juvenile court where a child protection case was already pending," he said.

The legislation, Mr. Haverfield added, provides a clear process to determine which court has jurisdiction in such cases.

"This legislation will not make adoption more difficult or harder for families to achieve," he said. "Only in cases where a child is in the temporary custody of a public children services agency or under the protective supervision of an agency will this statute come into play."

Mary Wachtel, director of public policy at the Public Children Services Association of Ohio also called for more clarity after the high court's ruling.

"Much of Ohio's juvenile code was developed in the 1970s and could not anticipate several key factors that make the impact of the decision especially challenging and relevant," she said in written proponent testimony. "These include the rise in importance of relative placement to help assure better outcomes for the child and how to resolve conflicts when a parent or other caregiver does not agree with decisions of the court. In some ways, it is not surprising that it took until 2016 for these issues to come to the forefront in the way that they did in this case."

Delaware County Juvenile Court Judge Dave Hejmanowski, testifying on behalf of the Ohio Judicial Conference, said the legislation will have the greatest impact on large counties in which jurisdictional issues more often arise.

**HB 309** **PARENTAL RIGHTS (Gonzales, A., Rezabek, J.)** To generally prohibit a person's blindness from being used to deny or limit custody, parenting time, visitation, adoption, or service as a guardian or foster caregiver, regarding a minor. **(CONTINUED; 2nd Hearing-Proponent)**

Richard Payne, testifying on behalf of the National Federation of the Blind Ohio, said the measure will outlaw a form of discrimination in which blind persons are denied or limited custody of their children.

"To deny a blind person this opportunity is extremely cruel and unnecessary," he said.

Heather Leiterman said when one of her children was a newborn hospital staff tried to stop her from taking him home before being interviewed by a social worker.

"Blindness is not a barrier between us and our babies," she said.

Other members of the National Federation of the Blind Ohio also provided written proponent testimony.

**HB 341** **PUBLIC RECORDS (Huffman, S., Cera, J.)** To include judges as individuals whose residential and familial information is exempt from disclosure under the Public Records Law, and whose addresses public offices, upon request, must redact from records available to the general public on the internet. **(CONTINUED-AMENDED; 2nd Hearing-Proponent-Possible amendments)**

Before hearing testimony an amendment offered by Chairman **Sen. Kevin Bacon** (R-Minerva Park) to clarify what information is shielded from the public and to add spouses was accepted.

OJC Executive Director Paul Pfeifer said the need for the legislation arose after the attempted assassination of a judge in Steubenville last year.

"Tragic incidents like these cause us to reflect on the effectiveness of the security and safety measures we have in place in our courtrooms and public buildings, and what additional steps can be made to ensure that events like this one do not happen again," he said.

The former Ohio Supreme Court justice noted that the personal information of several other public officials is already exempted from open record laws.

"It makes little sense that judges are not already included in the list of public service workers, like prosecutors and bailiffs, whose personal information is exempt from public disclosure," Mr. Pfeifer said.

Thomas Freeman, president of the Ohio Association of Magistrates, struck a similar note.

"By including magistrates and judges in this bill, the legislature would be providing protection to all judicial officers at the same level of other public service workers," he said in written proponent testimony.

**HB 405**      **COUNTERFEITING (Perales, R.)** To create the offense of counterfeiting and to include counterfeiting within the definition of "corrupt activity" under the Corrupt Activities Law. (**CONTINUED**; 2nd Hearing-All testimony)

Dublin Police Chief Heinz von Eckartsberg, testifying on behalf of the Ohio Association of Chiefs of Police, said the legislation will make it easier to pursue counterfeiting charges.

"By passing this legislation, agencies across Ohio will benefit by being able to simplify local charges and pursue individuals or groups that engage in ongoing corrupt criminal enterprises more effectively," he said.

Kevin Dye of the Secret Service said counterfeiting is fueling the drug crisis in Ohio. He also said Ohio has become a hotbed of counterfeiting due to lax laws.

"Ohio is one of only ten states that lacks legislation addressing the crime of falsely making, forging, counterfeiting, or altering written instruments such as currency, coins, bonds or checks, and/or other securities of the United States," he said. "This new law will set a national standard for counterfeit violations at the state level while significantly helping agencies address the use of this counterfeit to purchase narcotics in our communities."

The panel also received written proponent testimony from representatives of the Ohio Prosecuting Attorneys Association, the Buckeye State Sheriff's Association and the Montgomery County Association of Police Chiefs.

**SB 198**      **MARRIAGE AGE (Yuko, K.)** To make changes to the laws governing the ages for which persons may marry. (**CONTINUED-AMENDED (See separate story)**; 2nd Hearing-Proponent-Possible amendments)

**SB 200**      **JURY SERVICE (Thomas, C.)** To require the names submitted by the Bureau of Motor Vehicles to the commissioners of jurors to be included on the annual jury source list compiled by the commissioners. (**CONTINUED**; 2nd Hearing-Proponent)

Niki Clum, legislative liaison of the Ohio Public Defender's Office, said she recently served jury duty and was part of a group of 30 who went through voir dire. In that case, an all-white jury was selected to decide the fate of a young black man.

Asked by **Sen. Cecil Thomas** (D-Cincinnati) about potential downsides of the bill, Ms. Clum said the jury manager was concerned about having to cull those under the age of 18 with a driver's license from jury pools.

"I would think that is something we could weed out so jury commissioners don't have to do that," she said.

**Sen. Bill Coley** (R-Liberty Twp.) also noted that non-citizens with driver's licenses would also have to be removed.

Thaddeus Hoffmeister said in written proponent testimony that the measure has several advantages, including a more equal distribution of jury service and a more diverse jury pool.

"While all segments of the community may not necessarily agree with a jury's ultimate decision, they have to believe that the process was fair," he wrote. "If not, our adversarial system may break down. One method of ensuring fairness is to rely on a cross-section of decision makers, which works to legitimize the verdict. A diverse jury does just this by including members from across the community not just those who register to vote."

Mr. Hoffmeister said any potential disadvantages are greatly outweighed by the advantages.

"At present, Ohio is one of two states, Wyoming the other, that requires drawing jury lists from one source," he wrote. "It is time for Ohio to catch up with the rest of the country."

#### **SB 251**

**PRIVATE IMAGES (Schiavoni, J.)** To prohibit the nonconsensual dissemination of private sexual images, to require that certain property involved in the offense be criminally forfeited, and to create certain legal rights and employment protections of a victim of the offense. **(SCHEDULED BUT NOT HEARD; 1st Hearing-Sponsor)**

**Sen. Joe Schiavoni** (D-Boardman) was not in attendance to provide sponsor testimony.

#### **SB 280**

**PUNITIVE DAMAGES (Eklund, J.)** To expand the exemption from punitive or exemplary damages limitations in tort law that is provided with respect to an act resulting in a felony conviction involving purposeful or knowing conduct so that it also applies when the act results in a felony conviction for a strict liability offense. **(CONTINUED; 1st Hearing-Sponsor)**

Sponsoring **Sen. John Eklund** (R-Chardon) said the measure is designed to apply existing exceptions to punitive and exemplary limitations to tort claims based on violations of per se felony offenses such as aggravated vehicular assault.

"The exceptions to the punitive damage limits do not apply in a tort case based on conduct that would be a per se felony offense," he said. "I believe this is an anomalous result. If Ohio deems certain conduct to be sufficiently blameworthy as to forego the need to prove a culpable state of mind to find someone guilty of a felony offense, then it should be treated, for purposes of removing the punitive damages limitations in tort cases, on par with conduct condemned only when it is done purposefully and knowingly."

**Governor's Appointments:** The panel also recommended approval of the governor's appointments of Carolyn Peters to the Ohio Civil Rights Commission and James Fitsko to the Peace Officer Training Commission.

**Subscribers Note:** Full testimony is available on the **committee's website** under May 22.

**Finance**

**HB 318**

**SCHOOL RESOURCE OFFICERS (Patterson, J., LaTourette, S.)** To define the necessary qualifications and responsibilities of school resource officers, to require the Facilities Construction Commission to study and report on school building security upgrades and to make an appropriation. **(CONTINUED; 2nd Hearing-Proponent)**

Frank Hall, a football coach and study hall moderator at Chardon High School, recounted the shooting at the school six years ago. He is credited with saving other students' lives by chasing the gunman from the school and has a foundation named in his honor.

"Six years ago we lost 3 young men who were murdered in their school, and these murders still continue in our country. Time and time again we offer our thoughts and prayers to the families of the victims, the schools, and communities affected by these tragedies, and these murders still continue in our country. It is time to act to prevent these horrific events. We must take action now, to protect our nation's most valuable resource - our children," he said in prepared testimony.

"I can't change the past, but we can, through this legislation, make sure it is more difficult for these types of events to happen. Putting a School Resource Officer who is a police officer with special training is the most important step in securing our buildings and protecting our children."

"Passage of House Bill 318 will allow schools to invest and adopt proactive measures, services, and added layers of safety to protect our children," Mr. Hall said.

**Sen. John Eklund** (R-Chardon) asked what resource officers do other than patrol schools. Mr. Hall said SROs do not discipline students but do interact with them in various ways as well as attend to school security.

Also responding to the lawmaker, he said the bill addresses mental health so it's important for SROs to understand children and identify potential problems.

Sen. Eklund, along with other members, thanked the witness for his service and bravery.

"You're a model for the type of SRO you're describing," he said.

**Sen. Vernon Sykes** (D-Akron) asked Mr. Hall if he believed SROs should carry guns and he said they should.

The witness told **Sen. Bill Coley** (R-Liberty Twp.) that it's a good idea to specially train the officers for school shooting scenarios.

**Sen. Peggy Lehner** (R-Kettering) asked what percentage of SRO training is related to mental health. Mr. Hall, also a deputy sheriff, said overall training is about 30 hours and 40% of it is focused on mental health issues.

Sen. Sykes questioned whether there should be experience and rank requirements for SROs. Mr. Hall said effectiveness at the position has more to do with a person's makeup and passion for the work.

For instance, he said more experienced officers could be "short-timers" looking to retire and get off the streets who go and sit in a desk at a school and don't interact with students or school officials.

Tim Armelli, a teacher and coach at Chardon High School and president of the Coach Hall Foundation, also testified in support.

"It is because of that horrific event that the Coach Hall Foundation, of which I am a part, will continue to assist communities to find ways to protect our school children," he said. "House Bill 318, I believe, is a necessity in moving to this end and providing Ohio's children with the protection they deserve."

"It is my belief and the belief of all of us with the Coach Hall Foundation that School Resource Officers are a necessity in our schools. Our children have a right to an education, and our parents and community have a right to believe our children will return to their homes and families every day," he said. "We must do a better job of protecting our children. We have an expectation that our children are being educated by licensed teachers, that our schools are maintained by certified electricians, plumbers and other professionals. Our transportation drivers have specific training and license endorsements. We must also have equally high expectations and standards for the men and women we put in the position of School Resource Officer."

"Throughout Ohio there currently exists confusion and inconsistency in the term and training of School Resource Officers. Local school officials can use the term School Resource Officer as they see fit. They can determine what training, if any, a School Resource Officer needs," Mr. Armelli said. "We need to set a standard by which the people in our buildings, with the task of protecting our children's lives, are held to a high standard of moral, ethical, and legal responsibility. House Bill 318 defines the qualifications and duties of a School Resource Officer."

"As a supporter of House Bill 318, I believe we are setting a consistent standard and identifying very consistent training for School Resource officers in our schools. It is critical that the position of School Resource officer adhere to the highest level of education and training, he said, adding that the money included in the proposal will provide for additional layers of protection for schools.

Chardon Police Officer Mike Shaw submitted written proponent testimony.

**HB 353** **UNCLAIMED FUNDS (Reineke, B.)** To exempt certain open-loop prepaid cards, closed-loop prepaid cards, and rewards cards from the Unclaimed Funds Law. **(REPORTED (No testimony); 4th Hearing-All testimony-Possible vote)**

**SB 296** **LAW ENFORCEMENT BENEFITS (LaRose, F., Hottinger, J.)** To revise the payments that surviving family members receive from the Ohio Public Safety Officers Death Benefit Fund and to permit surviving spouses and children to participate in the health, dental, and vision benefits offered to state employees as if the survivors were employees of this state. **(CONTINUED; 2nd Hearing-Proponent)**

Two witnesses from the group Ohio's Law Enforcement Line of Duty Death Surviving Spouses and Children testified in support and four others from the same group submitted written testimony.

Angela McDowell, widow of Officer Terry McDowell of the Whitehall Police Department, said he was ambushed and killed while serving a traffic citation and his partner, Officer Eric Brill, was critically wounded, subsequently ending his law enforcement career.

"It is bad enough to be told by programs such as Victims of Violent Crime that you do not qualify for that benefit because that your officer wasn't a victim of a violent crime due to his profession," she said. "And then to be further victimized because your death puts you at the earliest retirement date thereby slashing your benefit to 50%, once again leaving your family to figure out how to make ends meet and afford your children all the dreams you would have fulfilled for them."

Ms. McDowell said the basic wording, amounts of the benefit and milestones within the Ohio Death Benefit "have virtually been unchanged since its inception in 1976."

"We have had seven Presidential changes in the United States, multiple healthcare bills introduced, minimum wage increases as well as cost of living increases but yet no changes to the Ohio Death Benefit since 1976," she said.

"Passing SB296 helps insure some financial stability especially when the children of the ones who gave the ultimate sacrifice are still in school. There is no fame or fortune in becoming a police officer but they all believe their families will be taken care of and afforded the simplest of benefits. That's what they believed. That's what they died thinking would be done. It is up to you to honor their dying wish with the passing of SB296."

Rebecca Muncy Brooks said her police officer husband was working on the west side of Columbus when he responded to a call for assistance and was subsequently killed in a crash on the way.

"In that instant I became a 31-year-old widow with two small children to raise alone. My daughter, Eryne had just turned 4 years old, and my son, Zachary was 1," she said.

"Little did he know when he went to work that afternoon, that his family's health insurance would be on the line, to the point where it would no longer be affordable. Little did he know that morning that his pension would eventually be cut in half at the absolute earliest date that he would have been eligible to retire, a full eight years before that of his classmates who have opted to be a part of the Deferred Retirement Option Program," she said.

"Little do any of these officers know that at a time when many of their children are still in high school and/or beginning college that their family's total income would be cut in half. At a time when these families need extra income to help offset these costs, their deceased officer's pension is being slashed by 50% and the surviving spouses are left to figure out how to put the pieces together and make ends meet."

Sen. Lehner asked about the lack of information the witness alluded to. Ms. Muncy Brooks said officers are told that families "will be taken care of" if they are killed in the line of duty. Jay McDonald, president of the Fraternal Order of Police of Ohio, said passing the bill "will provide reassurance to our first responders that their family will be taken care of should the worst happen."

"It shows then that this state understands the dangers of the profession and have planned ahead to take care of our spouses and children. It helps with the worries that all first responders have about making sure our loved ones will not suffer financially should we be asked to make that ultimate sacrifice," he said.

"This bill will tell all firefighters and law enforcement officers that Ohio has their back and the FOP of Ohio believes it should be passed without delay."

**Sen. Bill Beagle** (R-Tipp City) asked if the bill was retroactive. Mr. McDonald said it will impact all survivors.

**SB 299** **WATER IMPROVEMENTS** (Gardner, R., O'Brien, S.) To allow equipment for the protection and preservation of Lake Erie to be purchased with proceeds from the Parks and Recreation Improvement Fund, and to appropriate funds for projects enhancing water quality in the Western Lake Erie Basin.  
(CONTINUED; 2nd Hearing-All testimony)

Several witnesses testified or submitted written statements in support of the bill as well as the House companion measure during Tuesday hearings. (*See House Activity Report*) Agricultural groups spoke in support of the measure and touted their own efforts to adopt best practices and curb agricultural runoff.

"Let the record show that our state's own farmer-led and farmer-organized associations have been, still are and continue to be willing partners with this General Assembly in promoting sound public policy that moves our farming community forward in becoming better stewards of healthy soils and clean water," said Mark Drewes on behalf of the Ohio Corn and Wheat Growers Association.

"Any one or any group that suggests that my fellow farmers and I have been absent in being part of the solution to improve farming practices and therefore improve water quality within the borders of our state have not been paying attention," he continued.

Scott Metzger said on behalf of the Ohio Soybean Association that the group generally supports the measure's "targeted funding approach."

"SB299 is an investment, by the state, in Ohio's farmers," Mr. Metzger said. "While this bill is a step in the right direction, we still have questions and concerns around the details of the targeted phosphorus reduction. We, as an agriculture community, have reached out to the bill's sponsors for clarification and OSA's support is contingent on the response to these questions."

Auglaize County Commissioner Doug Spencer, co-chair of the County Commissioners Association of Ohio's Water Quality Task Force, said in written testimony that the bill's funding streams would help the state keep its promises in regard to addressing Lake Erie issues.

"With Ohio agreeing to reduce phosphorus loading into Lake Erie's Western Basin by 40% by 2025, Ohio must take steps to ensure this benchmark is met," he said. "SB299 is a positive step toward achieving the needed phosphorus reductions and creating a healthier Lake Erie."

Robert Brundrett, director of public policy services for the Ohio Manufacturers' Association, said in written testimony the measure "provides a thoughtful funding approach to address Lake Erie water quality issues" and a "prudent approach in providing resources that will improve the lake's water quality."

And the Ohio Dairy Producers' Association wrote that dairy farmers are "working tirelessly" to pursue best management practices. "ODPA strongly encourages the use of funds to include: manure storage, handling, transportation and application equipment," the group added. Additional written proponent testimony was submitted by the Ohio Cattlemen's Association.

**Governor's Appointments:** The committee recommended full Senate approval of the governor's appointments of Cindy Crotty to the University of Akron Board of Trustees and Wallace Edwards to the Shawnee State University Board of Trustees.

**HB 392** **APIARY DAMAGES (Stein, D.)** To grant specified apiary owners immunity in personal injury or property damage cases involving bee stings.  
(CONTINUED; 3rd Hearing-All testimony)

John Van Doorn of the Ohio Association for Justice said his group "opposes civil immunity legislation in general because it nullifies one of our Constitutional rights and creates a special set of rules for an exclusive set of people.

"We have to ask here: Does the situation described by the proponents rise to the level that justifies suspending one of our fundamental Constitutional rights? Further, will this legislation relieve the problem as presented?" he said.

"As the proponents testified, there is no liability crisis. They said they know of only a few lawsuits going back quite a number of years," he said. The last successful lawsuit of the sort the bill addresses occurred in 1925 when a farmer sued when the neighbor's bees stung his horse to death.

**Sen. Rob McColley** (R-Napoleon) asked if he believed the bill was a "solution in search of a problem?" The witness said that summed up his groups position fairly well.

Theresa Lieberman-Smith reiterated the support of the Ohio Beekeepers Association.

**HB 506** **DOG BREEDERS (Hill, B.)** To revise the law governing high volume dog breeders. (REPORTED-AMENDED; 3rd Hearing-All testimony-Possible amendments & vote)

Prior to the bill's report, the committee adopted several amendments, after which Tom Pappas, representing the Human Society of the United States, said that group had agreed to shelve its proposed ballot issue based on those changes and a memorandum of understanding between interested parties that remains in the works.

Chairman **Sen. Bob Hackett** (R-London) said the amendments, along with a couple corrective changes, would:

- Revise flooring standards of care.
- Address the housing of dogs in groups.
- Change cage size calculations to reflect current rules.
- Modify veterinary care requirements.
- Adds 15 minutes for the human interaction requirement.
- Include a time period of 30 minutes per day for exercising.
- Limit the number of litters a dog can produce in a lifetime to eight.
- Allow for the use of outdoor primary enclosures only with a veterinarian's approval
- Require dogs to have a continuous supply of water.
- Requires dogs to be fed twice daily unless otherwise directed by a vet.
- Revise the definition of a "high volume breeder."
- Revise the definition of a "breeding dog" as an unspayed female whose primary use is to produce offspring.

--Set standards for signed documents required for pet stores and dog retailers.

Zaron Van Meter of Scottish Terrier Rescue Support, and Rabbi Areyah Kaltmann of Columbus testified in opposition to the bill.

Ms. Van Meter said she was disappointed that the bill didn't more extensively address problems with "puppy mills," including bacterial outbreaks that can occur under unsanitary conditions. She called the bill a step backward from prior legislation on the subject.

"When is Ohio going to take further measures to protect Ohio citizens and our children. Ohio is second in the U.S. for puppy mills next to Missouri that is ranked number one, and Ohio is also second in outbreaks," she said. "HB506 regresses back in true favor of the breeders."

Rabbi Kaltmann urged the committee to require the Department of agriculture to list bonafide "rescue dog" operations on its website, saying "brokers" had coopted the term and were deceiving puppy buyers.

"This consumer protection measure will give families the ability to check the AG web site when they come across an online ad for a homeless dog or puppy," he said. "We must protect well intentioned consumers from these fraudulent practices. This bill is a perfect opportunity to address this obvious oversight."

**Governor's Appointments:** The committee recommended full Senate approval of the governor's appointments of Kimpton Williams to the Thoroughbred Race Fund Advisory Council and Michael Frederick to the Commercial Dog Breeding Advisory Board.

**Health, Human Services & Medicaid**

**HB 111** **MENTAL HEALTH COMMITMENTS (Carfagna, R., Ryan, S.)** To authorize certain advanced practice registered nurses to have a person involuntarily transported to a hospital for a mental health examination. **(REPORTED-AMENDED; 7th Hearing-All testimony-Possible amendments & vote)**

The measure was unanimously reported after the committee accepted a series of amendments offered by chairman **Sen. Dave Burke** (R-Marysville).

The first amendment would allow the State Medical Board to handle situations in which trainees from programs outside of Ohio come into the state for elective clinical rotations, Sen. Burke said.

The second would enable the Medical Board to hire a third-party agency for subpoena delivery in cases regarding respiratory care and dietetic licenses, the senator said.

Another amendment would create an exemption to an advanced pharmacology requirement for advanced practice registered nurses who are grandfathered in, he said.

The final amendment provides a description of residential addiction treatment services and makes corrections to a previous amendment regarding medication assisted treatment, the senator said.

**HB 131** **PHYSICAL THERAPY (Gavarone, T., Reineke, B.)** To modify the laws governing the practice of physical therapy. **(CONTINUED; 1st Hearing-Sponsor)**

Sponsors **Rep. Bill Reineke** (R-Tiffin) and **Rep. Theresa Gavarone** (R-Bowling Green) said the legislation would update the law regarding physical therapists to specify that they can make a physical therapy diagnosis.

"As Ohio continues to combat the devastating opioid epidemic, we must promote and encourage pain management modalities without the use of opioids," Rep. Reineke said.

"House Bill 131 is a vehicle to do just that. Physical therapists are rigorously trained, educated at a doctorate level, and are ready to provide healing approaches, over long-term or high dosage use of addictive prescription painkillers."

Physical therapists would still be required to refer patients to another health care provider if the patient's condition falls outside the scope of practice for a physical therapist, Rep. Gavarone said.

"House Bill 131 will bring Ohio in line with at least 21 other states that specify that physical therapists diagnose. I think it is important to note that many other health care providers in Ohio have language included in their scope of practice allowing them to make a diagnosis," she said.

**HB 263** **OUTDOOR DINING AREAS (Lanese, L.)** To generally allow an owner, keeper, or harbinger of a dog to take the dog in an outdoor dining area of a retail food establishment or food service operation. (**CONTINUED**; 2nd Hearing-Proponent)

Vicki Deisner, government affairs representative for the Animal Welfare Institute, said Ohio has pet-friendly hotels, parks and events, but pets are not allowed on outdoor restaurant patios.

When she lived in Alexandria, Va., she said restaurants and other venues would often emphasize that dogs would be allowed as part of marketing plans, including hosting events to encourage people to bring pets.

"It was obvious that including dogs on patios, and indeed marketing to their inclusion in Halloween events and providing a canine cruise increased the amount of paying customers for restaurants in the city of Alexandria," she said. "It would be great to see that marketing opportunity happen here in Ohio."

Ms. Deisner told **Sen. Dave Burke** (R-Marysville) that a provision added to a similar Senate proposal (**SB 182**) to allow public health authorities to revoke the ability to have dogs on patios in the event of a public health emergency is already included in this version.

**Sen. Peggy Lehner** (R-Kettering) asked about the consideration for people who are allergic to dogs. That's something restaurants and businesses would likely take into consideration when working with customers, Ms. Deisner said.

The committee also received written testimony from more than half a dozen people in support, including representatives of the Ohio Restaurant Association, the Humane Society of the United States, the Cleveland Animal Protective League and Seventh Son Brewing.

**HB 286** **PALLIATIVE CARE (LaTourette, S.)** To create the Palliative Care and Quality of Life Interdisciplinary Council, to establish the Palliative Care Consumer and Professional Information and Education Program, and to require health care facilities to identify patients and residents who could benefit from palliative care. (**CONTINUED-SUBSTITUTE**; 3rd Hearing-Possible amendments)

The committee accepted a **substitute bill** that Sen. Burke said makes changes to the definition of palliative care and changes how the measure affects hospice providers who provide non-hospice care.

Dr. Zach Rossfeld, who practices palliative care at Nationwide Children's Hospital, said palliative care is often misunderstood by patients and providers and unavailable to many Ohioans.

"As we continue to advance our science, we must also mind the supremely personal interaction that is medicine," he said in written testimony. "The health care system needs help remembering to do this."

**HB 332**      **ANATOMICAL GIFTS (Antani, N.)** Regarding anatomical gifts, transplantation, and discrimination on the basis of disability. (**REPORTED**; 4th Hearing-All testimony-Possible vote)

The committee voted unanimously to report the measure.

Jen Alge, representing the Autism Society of Greater Cincinnati, wrote in support of the measure. She said she has two children with disabilities: a son who is autistic and a daughter who has Down syndrome.

"If Jack or Evie, or any child with a diagnosis of autism or Down syndrome or any disability, needs an organ transplant they should be put on the waitlist like everyone else. Having your child evaluated and then diagnosed with a disability should not be counted against him or her for a life-saving measure," she said.

**HB 345**      **DISEASE CURES (Butler, J.)** To adopt the Solemn Covenant of the States to award prizes for curing diseases. (**CONTINUED (See separate story)**; 1st Hearing-Sponsor)

**SB 119**      **OPIOID MEDICATIONS (Hackett, B., Hottinger, J.)** Regarding addiction treatment and opioid prescribing by physicians and dentists. (**CONTINUED-SUBSTITUTE**; 4th Hearing-All testimony-Possible amendments & vote)

The committee accepted a **substitute version** that maintains the good Samaritan language in the bill allowing a licensed individual to administer naltrexone, Sen. Burke said.

It also requires that a provider must provide patients of all forms of medication assisted treatment available before providing any, and that a pharmacist can administer or dispense a short-term supply of naltrexone if a patient has been receiving the treatment but is unable to obtain a new prescription in some circumstances, he said.

Antonio Ciaccia, director of government and public affairs for the Ohio Pharmacists Association, said the problem considered in the legislation is similar to a previously passed piece of legislation (HB188, 131<sup>st</sup> General Assembly) designed to address issues where patients are left without needed medication when the doctor cannot be reached.

Changes to this measure, he said, would expand that similar solution - allowing pharmacists to dispense a short-term supply to a patient who can demonstrate they are on the medication - to medication-assisted therapy, specifically naltrexone.

"This legislation will now ensure that no patient is left stranded, and no matter what, when in a pinch, patients undergoing naltrexone therapy will have access to every pharmacy in the
